5. New Business  
Hearings (typically last around 20 minutes per application) 8:20pm
  1. Informal Hearing re: 39 Russell Street (Walsh) re: addition of new structure. Presented revised plans. S. Makowka asked if they have talked with neighbors about plan. They have not and he suggested they talk before the formal meeting. D. Baldwin asked what this is called – two condominiums on a single lot. Some questions whether the massing is appropriate for this lot. Those issues will be

addressed at the formal hearing. J. Worden said possible question raised in prior new construction hearings is what is the footprint relative to each of these buildings and their respective lots. Applicant will have that information for formal hearing. D. Baldwin noted page 5 of the plans has the footprint proposal – total 1,600 plus 1,325 plus garage which is not included. Approx. total 3,000sf. J. Worden made general point that the Parmenter House is one of the most important houses in the district with such a striking fence. It sits on the largest lot in the district and gives a great look back to the time it was built. Without going too “Williamsburg” or “Sturbridge Village”, if the connections looked like a barn being connected it might look like it could have been there, but this looks like two houses on one lot. Configuration looks like a second house stuck on to the initial house. While it can’t be seen very much it takes away a scarce piece of open land in the area. To the extent that you can see it “here is something new that happened” which seems difficult for J. Worden to support. C. Barry asked if any thought of getting rid of shed dormer on regular house. D. Baldwin said he’s been trying to give this a lot of thought. There just seems to be some sort of disharmony. Maybe it’s the Italianate on the new addition that doesn’t mix with the Italianate on the original house. Doesn’t know the answer to help, but it just bothers him. Discussion about the proposed roofline and what you are giving up to keep that roofline down to minimize visual impact

2. **Informal Hearing re: 30 Russell Street (Makowka)** re: gutter replacement. S. Makowka has slate roof and they’re having ice dam problems on the front of the house. One suggestion from slate contractors is copper ice belt along bottom 3 feet, standing seam copper belt. Looking for approval to install copper ice belt and possibly fiberglass gutter company gutters or copper gutters. M. Bush moved that pursuant to the application the proposed change is so insubstantial to the character of the neighborhood that a 10 day certificate would be appropriate. Seconded by C. Barry. Unanimous approval for 10 day certificate. M. Bush moved approval of application as presented for copper ice belt and replacement of wood gutters with either The Fiberglass Gutter Company’s product which mimics the profile of existing gutters or with copper gutters. Seconded by C. Barry. Unanimous approval. Monitor appointed C. Barry
